You already have the trust. We already have the deals.

Your clients run businesses, and most are quietly overpaying on energy, insurance, waste and broadband — UK businesses have no price cap, and rollover rates run 40–80% above a negotiated deal. You're perfectly placed to fix that for them, and get paid for it.

MyBusinessDeals is a trading style of My Energy Deals Ltd (Companies House no. 15509088). MyBusinessDeals is an introducer, not a lender or insurer. Comparison across energy, insurance, waste and broadband is free — we are paid by suppliers. Earnings figures shown are illustrative averages, not guarantees; partner share is paid on completed deals once commission clears. Full terms provided on joining.
